

## K – ELPA KITE® Client – Interactive Demos

Interactive demos familiarize students with the KITE system. They provide a sampling of questions that may appear on tests within the Kansas Assessment Program’s Kansas - English Language Proficiency Assessment (K-ELPA) and are intended to help students become familiar with the technology tools that will be used on the assessment.

### Accessing Interactive Demos

**NOTE:** To access the interactive demos, you must have KITE Client installed on your desktop, laptop or tablet.

To access the interactive demos, perform the following steps.

1. Open KITE Client.
2. Enter a username and password from the tables on this page.

Hint: Choose Practice First on the welcome screen.

### K – ELPA Logins for desktop or laptop

Level (Grades)	Domains	Username	Password
Elementary Grade K	Reading, Writing, Listening, Speaking	int.demo.k	mild9
Elementary Grade 1	Reading, Writing, Listening, Speaking	int.demo.1	dial2
Elementary Grade 2-3	Reading, Writing, Listening, Speaking	int.demo.2-3	entry
Elementary Grade 4-5	Reading, Writing, Listening, Speaking	int.demo.4-5	moral
Middle School (6-8)	Reading, Writing, Listening, Speaking	int.demo.6-12	deny0
High School (9-12)			

### K – ELPA Login for iPad

The only domains that may be tested using an iPad are: reading, writing and listening. Speaking items may only be tested on a desktop or laptop computer.

Level (Grades)	Domains	Username	Password
All Grades	Reading, Writing, Listening	demo.iPad	cars3

# **Educator Teaching Tips**

## **Helping Students Understand and Use Technology to Successfully Navigate K-ELPA**

1. K-ELPA is assessed using KITE Client.
2. Students should become familiar with the process of logging into KITE.
3. Students should become familiar with the process of logging into KITE. Students have a username and password assigned specifically to them when they take the actual assessment; however, interactive demos use generic logins. These logins may be used again and do not expire. No results are stored for interactive demos.
4. K-ELPA tests four different domains: reading, writing, listening and speaking. For purposes of the interactive demo all four domains are included in one demo. When students take the actual assessment each domain is assessed separately. A Daily Access Code (DAC) for each domain assessment will be provided by the District or Building Test Coordinator to educators. Students enter the DAC to enter the test.
5. The only domains that may be tested using an iPad are: reading, writing and listening. Speaking items may only be tested on a desktop or laptop computer.
6. A [video](#) is available to familiarize educators with helpful teaching tips when using K-ELPA interactive demos.
