

ELA Target & Standard Performance Descriptors

Grade 7

This document aligns the **claims** and **targets** of the 2018–2019 Kansas Assessment Program (KAP) to the Kansas standards for English language arts. In addition, it illustrates how the state standards align to the performance level descriptors created for the assessment. Review how each standard is incorporated into the state assessment and the criteria that students must meet to demonstrate proficiency.

Targets are drawn from the standards, and under each target, you will find the connected standards. After each target, the goal Depth of Knowledge (DOK) is provided as a general reference for the projected maximum DOK of items.

Note: The 2020 KAP assessment design will focus on the language of Kansas standards. This document will be revised accordingly for the 2019–2020 school year.

Claim 1: Reading

Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.

- Students scoring in the Level 2 range typically read and comprehend readily accessible texts and may be able to read texts of moderate complexity. Students interact with both literary texts (Targets 1–7) and informational texts (Targets 8–14).
- Students scoring in the Level 3 range typically read, comprehend, and analyze readily accessible texts as well as read and comprehend texts of moderate complexity. They may be able to read very complex texts. Students interact with both literary texts (Targets 1–7) and informational texts (Targets 8–14).
- Students scoring in the Level 4 range typically read, comprehend, and analyze texts of moderate complexity and very complex texts. Students interact with both literary texts (Targets 1–7) and informational texts (Targets 8–14).

Claim 2: Writing

Students can produce effective writing for a range of purposes and audiences.

On the Kansas summative assessment, students are not composing but are reacting to composed texts to demonstrate knowledge, application, and synthesis of writing conventions. To measure student composition, students should continue to practice short and extended writing that is evaluated at the local level. For Target 9, students apply and edit conventions of varying sophistication in stimuli of varying complexity that are appropriate for their grade level. For example, a student scoring in Level 2 can edit for subject-verb agreement in a short, simple stimulus while a student scoring in Level 4 can edit for subject-verb agreement throughout a longer, more complex stimulus.
