

Kite[®] Suite Whitelist Settings

During testing, the Kite Student Portal software will need to communicate with Kite's servers. If your testing location uses a firewall, be sure to whitelist the following domains to ensure proper app functionality.

Whitelist the following URLs:

*.kiteaai.org

<https://ssl.google-analytics.com>

If you are unable to whitelist wildcards, whitelist the URLs below:

<https://files.kiteaai.org>

<https://educator.kiteaai.org>

<https://student.kiteaai.org>

<https://kite-ohkp-student-login.kiteaai.org/>

<https://kite-ohkp-secondary-student-login.kiteaai.org/>

<https://kite-ohkp-student-click-history.kiteaai.org/>

<https://kite-ohkp-secondary-student-click-history.kiteaai.org/>

<https://kite-ohkp-student-kelpa-audio.kiteaai.org/>

<https://kite-ohkp-secondary-student-kelpa-audio.kiteaai.org/>
