

Vector Minor Release 1 Notes

Kansas Assessment Program

August 2024

The following features are included in the most recent release of Kite® Educator Portal and Kite Student Portal.

New features:

- **Reactivating Multiple Completed Sessions/Stages** - When reactivating a non-final Stage/Session, there is now a pop-up that includes a checkbox allowing later sessions that have already been completed to be reactivated at the same time. Any sessions that were already available will still be accessible in Student Portal.
- **Interim Question Report** – The Interim Question Report was moved from the bundled reports page to the Interim Report tab.
- **Predictive Name Change** – Any instance of “Predictive” has now been replaced with “Interim” to align with the name change initiated by KSDE.
- **Test Performance Review** – A new interim report that will show items, item rationales, and the percentage of students that answered each item. Some item types will indicate the percentage of students that selected each response option, while others will only indicate the percentage that answered correctly/incorrectly. Each item will have two pages: the first displays the item preview with answer percentages, the second shows the same item preview with the correct answer, answer percentage, and rationale.
- **Interim Predictive Report** – Interim Predictive reports are now available within the Student Report Archive.
- **Correct Response Symbol on Interim Test Item Report** – The symbol to indicate the correct response on the Interim Test Item Report has been updated from an asterisk to a check mark.

Updated features:

- **Feedback Report** – The feedback report, previously had the name Test Performance Report, shows educators the item, possible responses, and then a breakdown of how students performed on the item. The feedback report is located under Instructional Report in the Interim tab.
