

# 2022 KAP Test Coordinator Regional Training

Whether you are a new or veteran test coordinator, make plans to attend one of the trainings held across the state in September and October. This training will cover the test coordinator's responsibilities, using Kite, and updates for the upcoming year. Although attendance is not mandatory, Test Security and Ethics will be included in this training. If you are the district test coordinator and attend this training, it will count as your required annual Security and Ethics training for this school year. If you are a DTC and are unable to attend, a required virtual option will be available for the Security and Ethics training portion of the day.

Regional Training Dates (9:00 am – 2:00 pm)	Click Location to Register
